

FRANK MAZA by LIMON JR

Limon Jr is a young singer songwriter, producer and arranger with a short but very prolific career. He is now proposing a new project where his alter ego, **Frank Maza**, takes on the artist role bringing to light a new sound which combines both his roots and vanguard music. The project involves a brand new set of original songs where the sounds and technology of today combine with flamenco in a very natural way to tell a story. A repertoire influenced just as much by Camarón, Paco de Lucía and Enrique Morente, as well as Billie Eilish, Bill Evans or Anderson Paak.
